Limited Warranty for PV Modules

1. Limited Product and Power Warranties

Effective Date: March 1, 2025

PV Module(s). This Limited Warranty is effective for photovoltaic modules from TCL SunPower International (“TCL Solar”) with the model numbers listed in the Warranty Table sold after the Effective Date (the “PV Modules”). The PV Module(s) exclude any power electronic, external connector, jumper, microinverter or other external device included or sold with the PV Modules.

Warranty Start Date. The Warranty Start Date is the earlier of: (i) the date of array interconnection, and (ii) 6 months following delivery of the PV Modules. If the delivery date cannot be verified, then the manufacturing date will be used in its place.

Product Warranty. Subject at all times to the terms and conditions in this Limited Warranty, TCL Solar warrants the PV Modules will be free from defects in materials and workmanship that materially impact the functioning of the PV Modules under normal application, installation, use and service conditions during the Product Warranty Term, as set forth in the Warranty Table.

Power Warranty. Subject at all times to the terms and conditions in this Limited Warranty, TCL Solar warrants the PV Modules will have a Measured Peak Power¹ of at least the Guaranteed Peak Power during the Power Warranty Term, as set forth in the Warranty Table.

Warranty Table.

| PV Modules ² | Product Warranty Term | Power Warranty Term | Guaranteed Peak Power (a percentage of “Minimum Peak Power,” which is the rated power shown on the label for the PV Module) |
|--|---------------------------------------|---------------------------------------|--|
| HSM-ND48-GRXXX HSM-ND54-GRXXX HSM-ND66-GRXXX | 25 years from the Warranty Start Date | 30 years from the Warranty Start Date | 99% of the Minimum Peak Power for the 1 st year of the Power Warranty Term, reduced by 0.40% at the beginning of each subsequent year of the Power Warranty Term, down to 87.4% for the final, 30 th year. |

2. Customer Support, Claims Process and Coverage

If any PV Module fails to conform to this Limited Warranty, except in the event such failure or any power loss results from or arises out of (in whole or in part) any of the excluded events set forth in Section 4 below, as determined by TCL Solar in its sole reasonable discretion, then for the applicable Warranty Term, TCL Solar will

¹ “Measured Peak Power” is a measurement of the watt peak of a PV Module at Standard Test Conditions (1000W/m² irradiance, AM1.5, 25C, SOMS current, LACCS FF and Voltage from NREL calibration), as described in IEC61215, measured per IEC60904, and accounting for 3% measurement tolerance. Measured Peak Power measurements require a sweep rate of no less than 200ms to ensure an accurate power measurement. TCL Solar can provide a detailed testing procedure or a list of recognized testing agencies upon request.

elect (in its sole and absolute discretion) to either repair, replace, or refund the defective PV Modules as set forth herein.

If you have a claim covered by this Limited Warranty, then immediately contact TCL Solar at customers@sunpowerglobal.com. Upon receipt of a claim, TCL Solar may require additional information regarding the claim, including: applicable warranty registration information; itemized proof of purchase, delivery or installation; serial and model numbers; and evidence regarding the basis of claim. All TCL Solar obligations hereunder are expressly contingent upon the timely and full provision of such additional information. Returned PV Modules will not be accepted unless prior written authorization has been provided by TCL Solar.

For any valid claim hereunder pertaining to any PV Module, TCL Solar will, in its sole discretion, repair, replace, or refund the original purchase price of the covered PV Modules. For repairs and replacements, TCL Solar will pay reasonable, customary transportation costs for the return of covered PV Modules from, and the shipment of repaired or replacement PV Modules to, the place where the covered PV Modules were originally delivered by TCL Solar. Replacement PV Modules may be refurbished or remanufactured PV Modules, will be electrically and mechanically compatible with the covered PV Modules, and will have a substantially equal or greater power rating.

If TCL Solar issues a refund under a valid Product or Power Warranty claim, then TCL Solar will refund the original purchase price for the first five years of the applicable Warranty Term, and then linearly depreciate the refund amount by 4.75% per year (the "Claim Value"), provided that for a valid Power Warranty claim, TCL Solar will refund the Claim Value multiplied by the percentage difference between the Guaranteed Peak Power percentage and the Measured Peak Power percentage (both as a percentage of the Minimum Peak Power). If you are unable to substantiate the original purchase price, then TCL Solar will use the current market value instead of the original purchase price to determine the Claim Value.
